
MISSION
Your Program,
Your Way.

Reimagine your future with *LIMITLESS POSSIBILITIES*

At MISSION, we value elite underwriters' expertise so deeply that we fuel their ambitions to create their own successful programs.

Our purpose as a program incubator is to provide a springboard for visionary underwriters to change their corner of the world through profitable, scalable programs.

We strip away bureaucracy and legacy mindsets to build your program centered around your expertise and specialized capabilities, but without the risks, complexity, and time involved in going it alone.

Put your talent and time into building your insurance business.

Insurance Venture Catalyst

We are a global underwriting company accelerating programs at an unheard-of pace, empowering world-class talent to build specialist companies secured by capacity and powered by next-generation expertise.

MISSION is revolutionizing underwriting by backing the best talent, secured by capacity, to create the most agile and resilient organizations.

We are the future.

Learn more about us

Backed by Altamont Capital, a US private equity firm with over $4.3 billion of capital under management, MISSION was established in the US in 2021, with the UK & European operation opening in 2022.

As of May 2026, we have launched over 30 programs and MGAs in the US, UK and Europe.

Our Approach

MISSION enables programs to establish themselves as specialist brands within their insurance class. Our model is scalable, standardized and measurable, ensuring regulatory compliance and customer satisfaction.

While maintaining these high standards, we customize our approach to align with each program's needs. Every program operates independently with its own profit and loss statement, ensuring individual performance is ring-fenced within MISSION.

Impact in Action

Long-term Capacity

We provide various capacity solutions to suit the needs of our programs.

End-to-End Infrastructure

Managed cloud-based platform with full suite of back-office services.

Global Reach

Operations across US, UK, and European markets, supported by 150+ specialists globally.

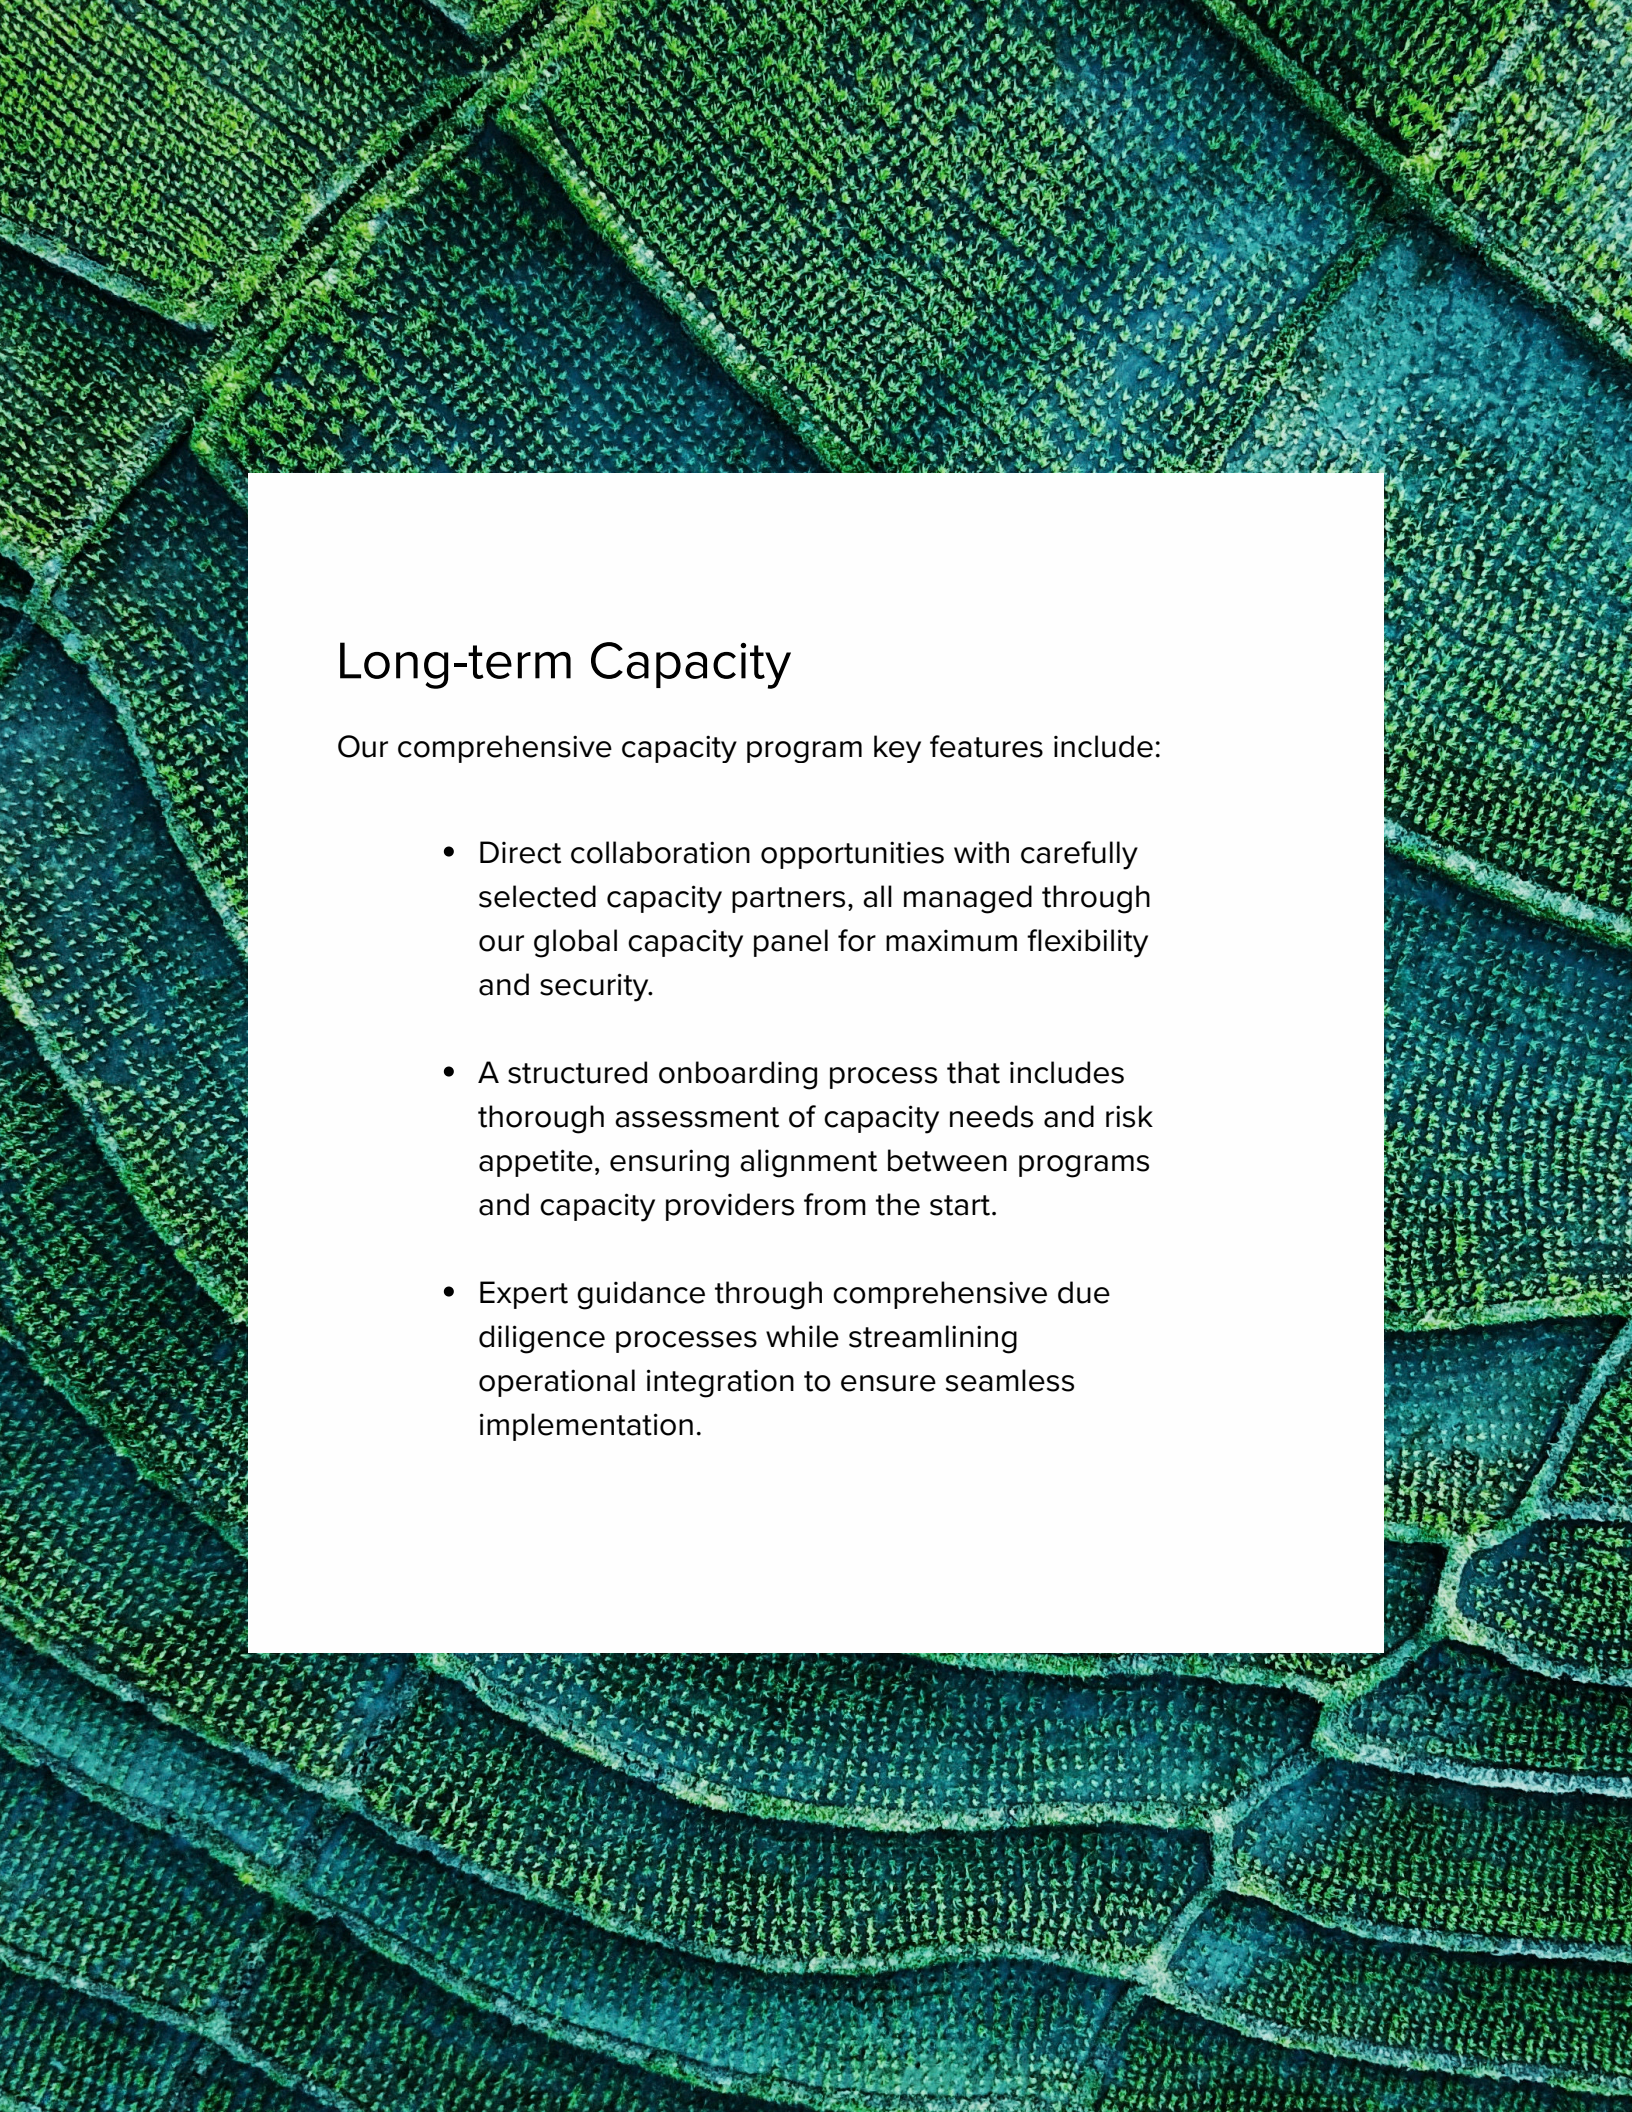

Launch Timeline

We can launch new programs within weeks through our streamlined approach.

Track Record

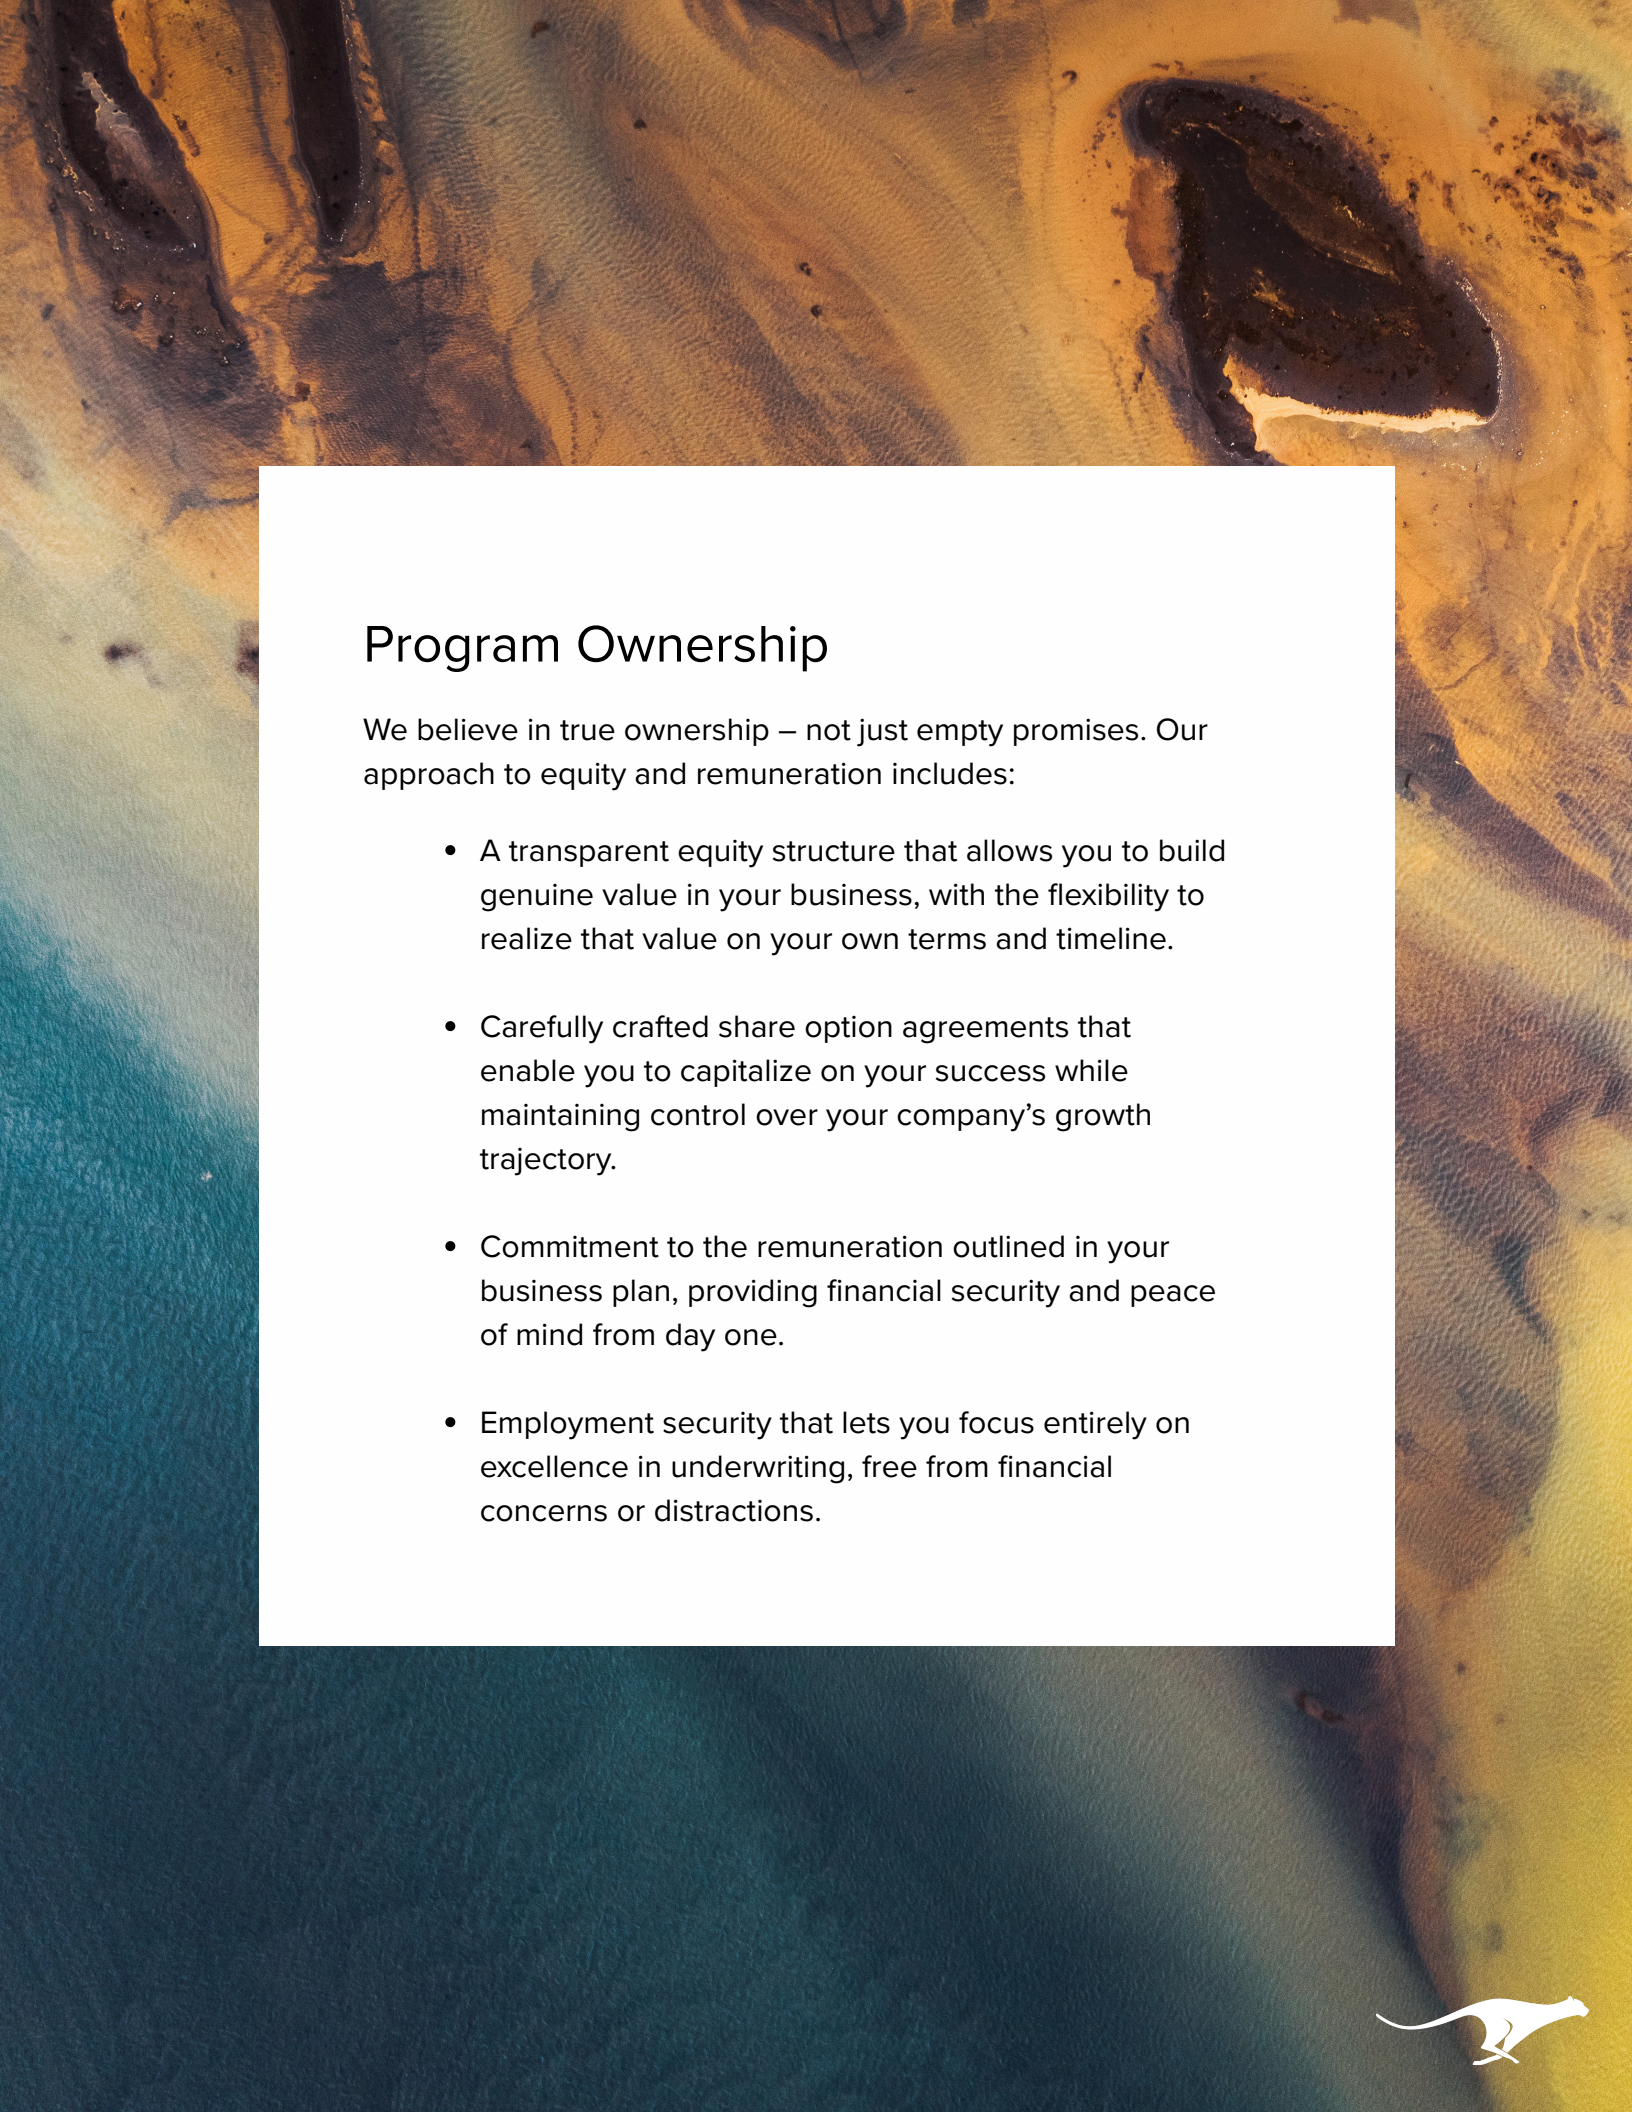

Collectively, our programs have written over $1B of GWP to date.

Long-term Capacity

Our comprehensive capacity program key features include:

- Direct collaboration opportunities with carefully selected capacity partners, all managed through our global capacity panel for maximum flexibility and security.
- A structured onboarding process that includes thorough assessment of capacity needs and risk appetite, ensuring alignment between programs and capacity providers from the start.
- Expert guidance through comprehensive due diligence processes while streamlining operational integration to ensure seamless implementation.

Program Ownership

We believe in true ownership – not just empty promises. Our approach to equity and remuneration includes:

- A transparent equity structure that allows you to build genuine value in your business, with the flexibility to realize that value on your own terms and timeline.
- Carefully crafted share option agreements that enable you to capitalize on your success while maintaining control over your company's growth trajectory.
- Commitment to the remuneration outlined in your business plan, providing financial security and peace of mind from day one.
- Employment security that lets you focus entirely on excellence in underwriting, free from financial concerns or distractions.

Expansion Support

When you're ready to scale your business, our growth support includes:

- Access to a team dedicated to finding capacity for your new line of business, opening doors for strategic expansion into new markets.
- Substantial investment capital dedicated to fueling your growth ambitions, whether through product diversification or geographic expansion.
- Comprehensive support for building and scaling your team while maintaining your ownership stake in the business.

Regulatory & Operations Backbone

Our compliance and operations framework ensures your business runs smoothly. Our support includes:

- A robust best practice framework backed by continuous professional development with thorough compliance training, tracking, and monitoring systems.
- Rigorous operational processes ensuring your business meets all regulatory requirements.

Purpose-built Technology

Our technology approach delivers practical solutions for our programs. Our infrastructure includes:

- Advanced data integration systems that ingest, connect, and analyze information across your entire value chain, reducing information gaps and providing actionable insights.
- A focused Minimum Viable Product strategy that prioritizes essential functionality from day one, enabling rapid market entry without unnecessary complexity.
- Streamlined integration of core business processes including rating engines, API configurations, automated communications, and comprehensive reporting capabilities.
- A simple yet powerful ecosystem designed for scalability, ensuring technology supports rather than hinders your growth trajectory.

Financial Foundations

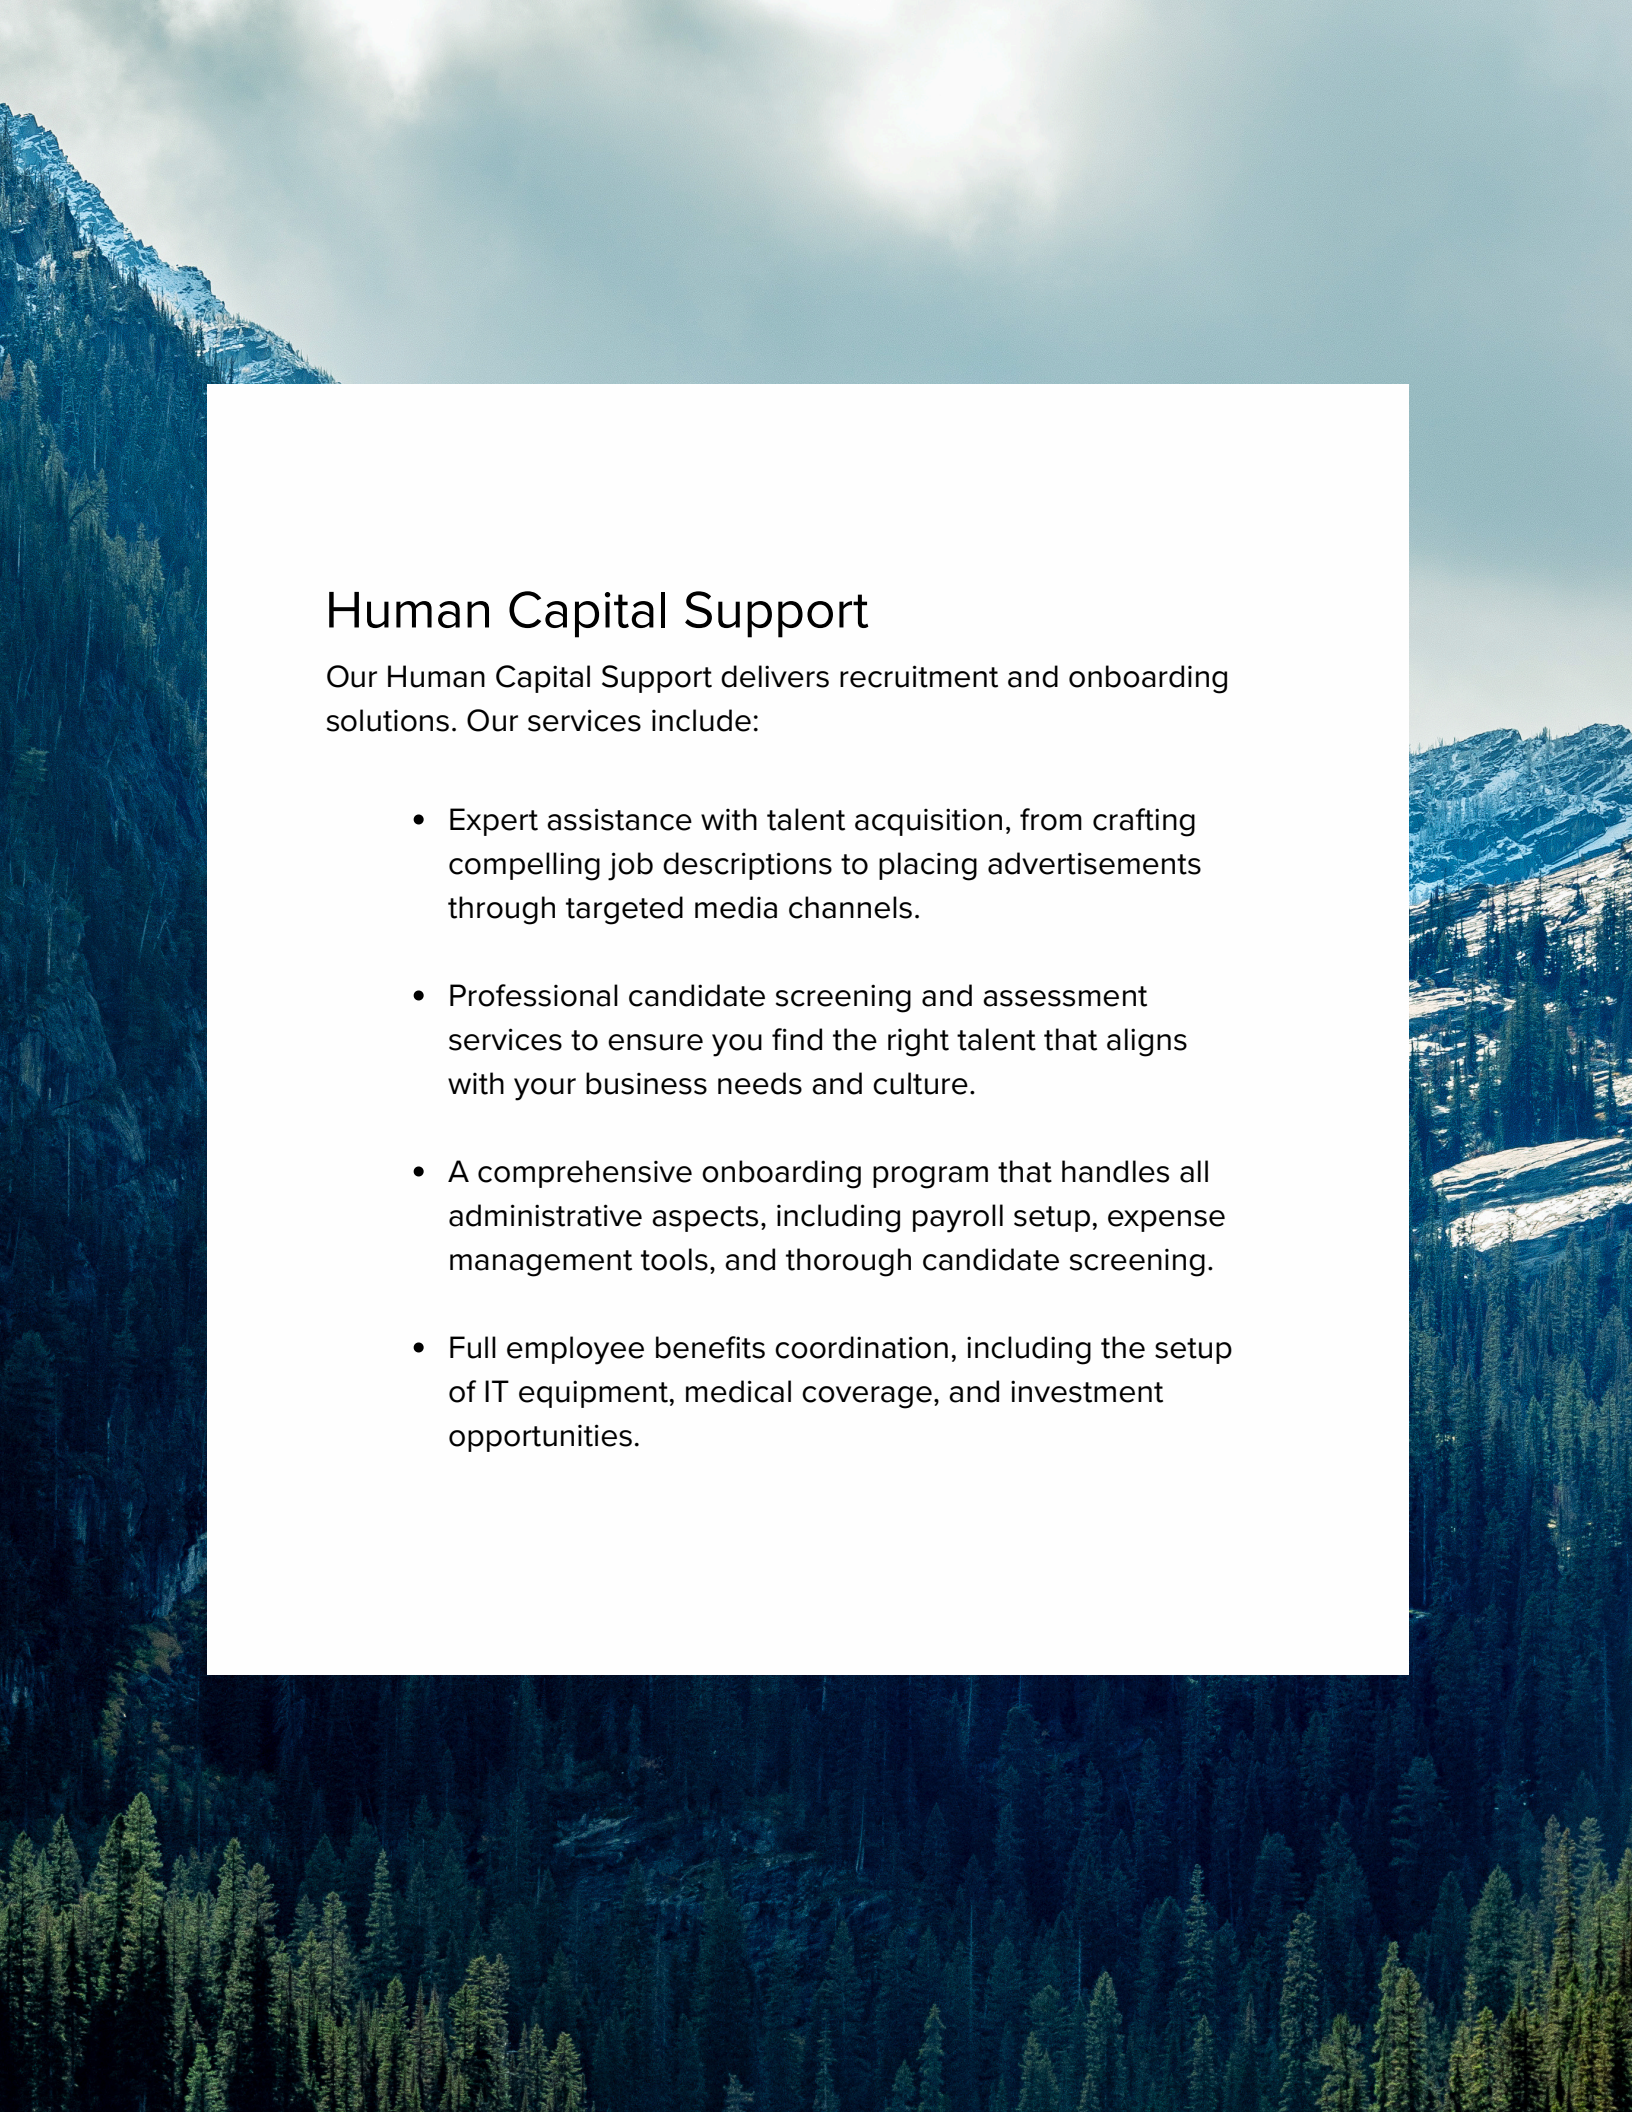

Mission provides comprehensive financial management support. Our services include:

- Complete financial administration covering payroll processing, expense management, supplier payments, and detailed bordereaux settlements and reconciliations.
- Treasury and cash flow management services that ensure smooth day-to-day operations while maintaining optimal working capital levels.
- Strategic financial planning support through budget forecasting, financial statement reviews, and ongoing performance analysis.
- Full financial compliance management, handling all aspects of corporate taxation, indirect tax obligations, and audit requirements.

Marketing for Growth

We provide unparalleled marketing support to drive your success. Our marketing resources include:

- Dedicated collaboration on developing and executing targeted marketing strategies that maximize your reach and generate qualified leads for your business.
- Access to experienced insurance marketing professionals who understand the industry's complexities and can translate that knowledge into effective campaigns.
- Strategic partnerships with award-winning agencies that bring innovative techniques and proven approaches to your marketing initiatives.
- Comprehensive brand development support to help you craft and communicate your unique value proposition to your target audience effectively.

Human Capital Support

Our Human Capital Support delivers recruitment and onboarding solutions. Our services include:

- Expert assistance with talent acquisition, from crafting compelling job descriptions to placing advertisements through targeted media channels.
- Professional candidate screening and assessment services to ensure you find the right talent that aligns with your business needs and culture.
- A comprehensive onboarding program that handles all administrative aspects, including payroll setup, expense management tools, and thorough candidate screening.
- Full employee benefits coordination, including the setup of IT equipment, medical coverage, and investment opportunities.
